LEGAL DISCLAIMER

It is important that you carefully read this legal disclaimer. If you have any questions feel free to seek legal, financial, tax, or other competent professionals' guidance. All of the information shown here is not intended to be exhaustive, and it should never be construed as part of any formal agreement.

We are confident that the material in this white paper is correct and current, and that all products, services, technical architecture, token distribution, and corporate schedules are correct and up to date.

NO ADVICE:

Nobody is obligated by this white paper to sign a contract or make a legally enforceable commitment to contribute, purchase or donate anything. There is no advice in this white paper, and it cannot be used to sell or solicit ' purchase of our token, nor can it be used to construct a contract or make an investment decision.

LIMITATION OF LIABILITY:

For any loss or harm originating from the use of this website's material, including written material, links to third-party sites, and data such as quotes and charts as well as buy/sell signals, **BLACKBERRY INU** or members of its community will not be held responsible for any damages. Understand the risks and costs associated with trading assets on the financial market (digital or otherwise). ICOs, in particular, are one of the riskiest investment choices available to investors.

INVESTMENT RISKS:

Because of the high level of risk and volatility, cryptocurrency trading is unsuitable for most investors. Before trading cryptocurrencies, tokens, or any other digital asset, you should carefully examine your investment goals, level of experience, and risk appetite. **BLACKBERRY INU** nor members of its community are responsible for any loss of coins for any reasons. Crypto is volatile and no promises of price or reaching or maintaining any certain value is possible. There are no guarantees.

ABOUT BLACKBERRY INU

A lot of projects launch with only those in the inner circle knowing about the launch time. **Blackberry Inu** is changing that by advertising prior to launch on several different platforms in order to give as many people as possible the opportunity to invest on Day 1. **BLACKBERRY INU** Is also having a fair launch, which means for 24 hours it will be available to purchase through a website that will give the initial investors a set price for it. This gives everyone interested the opportunity to invest at the starting price. For those who come later, a way to receive continuously free airdrops just by holding **BKBY** has been built into the contract.

Although there are many Meme Coins that came before and changed the lives of many, such as DogeCoin, Shiba Inu, Floki Inu and many others, **BLACKBERRY INU** is the next great opportunity. The community will continue to gain from our incentive system regardless of when they are investing or how long they have held for. There is no locking or time requirement to gain Shiba Inu from our ecosystem.

Investors have a rare chance to own **BLACKBERRY INU** for what may be the lowest price ever because it is releasing at a time when the market is supposed to be in a bear market.

With a Roadmap centered on gaming, community and utility, **BLACKBERRY INU** is a flexible community-driven project that aims for longevity in the industry. Developed by a bunch of crypto enthusiasts and fans of anime & tech.

Join the vibrant community for tons of competitions and neverending giveaways!!

OUR MISSION

Our mission is to:

- Assist retailers to **accept our digital assets** in exchange for goods and services.
- To help further decentralization and help make cryptocurrency and Blockchain technology **available to everyone** and help teach it works.
- Ensuring that people own their personal data and funds decentralized which will greatly **reduce the existing data leaks** through centralized financial systems.
- Operate as a fully decentralized digital asset that is both **community-focused and community-driven**.
- To **establish an environment** in which various socially conscious solutions, such as collaborative software, might flourish.

"As part of the MemeCoin community we desire to help unite crypto investors & lovers together for Decentralization."

OUR VISION

BLACKBERRY INU is beneficial not only to the early investors, but any individual investor will be able to gain something from holding. This gives incentive to not join the community as a holder but also to benefit from it without having to constantly track charts. Essentially holders benefit regardless of if the chart is trending up, down or sideways enabling more of the community to become diamond handed.

With the constant Shiba Inu rewards going out to BKBY holders, it ensures holders have no need for a first come or pump and dump mentality. This will help create a solid floor and enable **BLACKBERRY INU** to change the lives of many.

BLACKBERRY INU is here to unite the MemeCoin community and bring lots of memes, fun and good times back to crypto. As a community based project we anticipate more members bringing new ideas and great vibes to the table and look forward to growing together!

FAIR LAUNCH

BLACKBERRY INU tokens will be sold to the public initially on the PinkSale platform as a fair launch. This means that the tokens are available to everyone for purchase at the same price.

Unlike other currencies that only give early access to select people or focus a lot of their time on listings on major exchanges, we are putting an emphasis on decentralization and teaching people the benefits of holding currency in their own wallets. Blackberry Inu also aims to help incentivize people to hold their Blackberry Inu tokens and receive airdrops during it.

After the fair launch ends, **BLACKBERRY INU** will be available for trading on the ethereum network via Uniswap followed by other exchanges.

ALL FOR ONE & ONE FOR ALL!

As members of the BLACKBERRY INU community, the community takes priority. The main focus is expanding awareness of the project while sharing the knowledge that has been acquired over the years by the long-term investors in the community.

There has been a lot of drama, scams and rug pulls in the crypto space, the BLACKBERRY INU community is here to help protect one another from falling victim to them. While we cannot predict what the future will hold or what decisions investors will make, but we can learn from the mistakes and successes of other communities and use that to our advantage.

Being here gives you the chance to invest in **BLACKBERRY INU** Token early and benefit from long-term growth that comes with expansion. We want to alter how common people use cryptocurrency and currency in general, including how it is bought, sold, promoted, supported, used in transactions and even produced. The goal is taking power out of the hands of banks etc and putting it into the hands of the community.

OUR ECOSYSTEM

BLACKBERRY INU is a blockchain-based ecosystem that also serves as a strong foundation for a myriad of decentralized infrastructures, where people can stake and it will function as a wallet with full insights of coins!

By enabling users to deal digitally from anywhere in the world for a low transaction fee, **BLACKBERRY INU** is altering the entire ecosystem and enabling a highly liberating, strategic, low-risk, and frictionless trading experience in a totally decentralized manner. Power in the hands of the people.

FEATURES AT GLANCE

- **Blockchain Infrastructure:** Integrates blockchain technology to provide secure assets built on ethereum blockchain.
- **Global System and Secure:** An efficient global system covering all corners provide the best data security. Anti-bot features to guard against malicious actors.
- **Easy coin Integration:** It will provide integration to all Wallets, Exchanges, DEXs, and Dapps that agree to utilize it.
- A focus on making transactions easier and introducing more people to decentralization and crypto in general. Use also has the advantage of being entirely decentralized, allowing for unrestricted international trade.

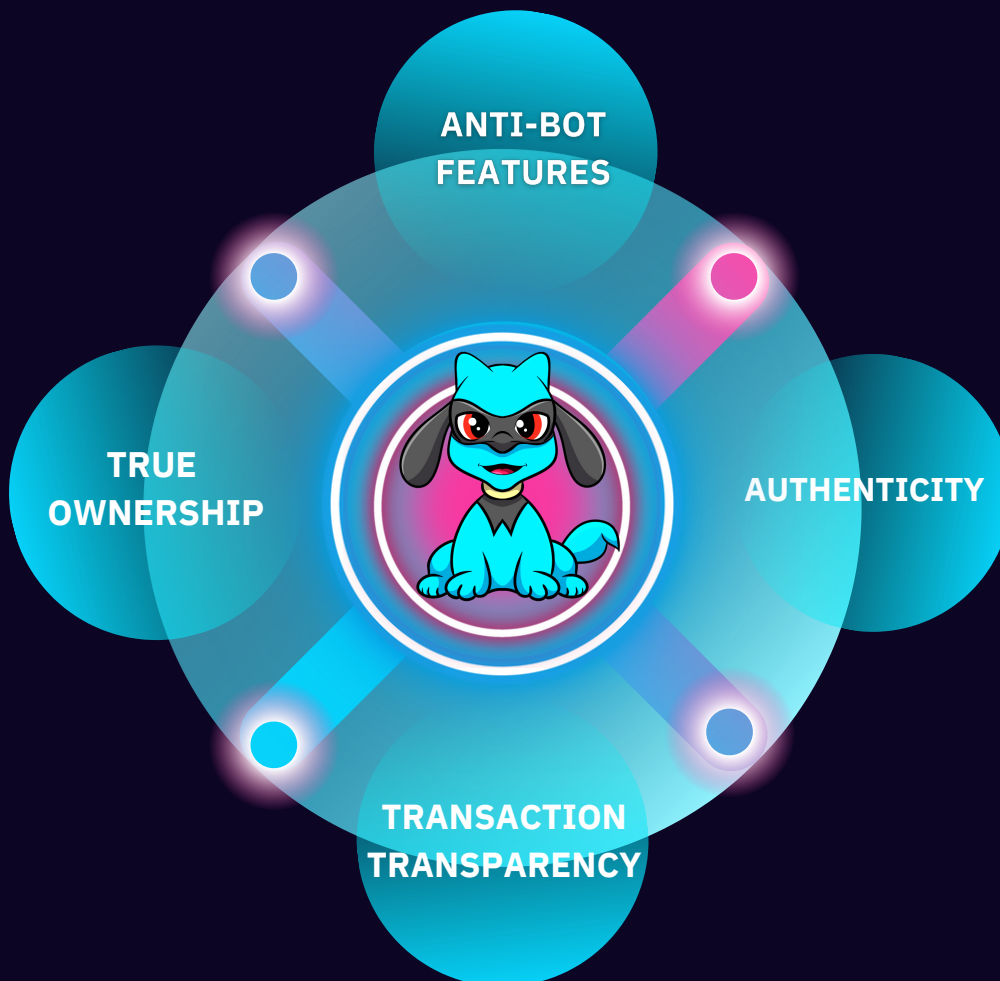

- Crypto has a significant impact on foreign payment fees as well. Traditionally, domestic payments and transfers have substantially lower fees than international payments and transfers. Cryptocurrency transfers and payments work the same way domestically and internationally and arrive almost instantly.

SECURITY IS A CORE VALUE

In the crypto sector, concerns with transparency, verification, ownership, and forgery have long existed. Additionally, the business of investing has historically only been accessible to those wealthy enough who can afford to spend large amounts of dollars investing in a single object. Crypto has the ability to overcome all social and wealth class divides, possibly improve the economic situation and is certainly meant to be enjoyed by everyone.

As a token on the Ethereum blockchain, BLACKBERRY INU will be decentralized, able to be held on your device and utilized by the holder at will. This avoids the dangers of having another person controlling your assets such as a bank or other centralized entity.

TOKENOMICS

Token Name	Blackberry Inu
Max Supply	1 Quadrillion

ROADMAP
